

**Fresh Bakery & Market** features hand-crafted artisan breads & morning pastries such as croissants, danishes, muffins & scones, as well as decadent cookies, bars, cakes & pies, all made using traditional European methods. We also offer fresh brewed locally roasted coffee, espresso, gourmet provisions, and delicious made-to-order artisan pizzas, and panini sandwiches on our fresh baked breads.

**Fresh** uses scratch made artisan dough exclusively to create a healthy and distinct pizza loaded with taste and texture. Creating the ultimate pizza is the result of combining our signature dough, home made tomato sauce, and the freshest toppings available.

Our panini sandwiches are served on our bountiful selection of hearth baked artisanal breads. We specialize in naturally leavened breads made with our own starters, as well as traditional European yeasted breads and a few choice American style "loaf" breads. Our mission is to bake great bread with simple, pure ingredients. None of our breads are made with artificial preservatives or chemical additives. "Artisanal" isn't just a trendy label at **Fresh**.

To us, artisanal means using traditional baking methods that emphasize a long, slow fermentation. Giving our bread plenty of time to ferment allows it to develop a richness of flavor and texture that cannot be created in bread that is hurried along with loads of commercial yeast. We hope you'll try all our breads and find your favorite!
